Summer 2013 Clinic at ICAN

ICAN of Washington, Inc. is looking forward to continuing the clinic option this coming Summer, 2013. Teaching procedures will utilize the methods of Applied Behavior Analysis with emphasis on **B.F. Skinner's analysis of Verbal Behavior**. Our sessions will include a combination of individual natural environment teaching, intensive teaching, and independent play pairings and activities. Instruction will be 1 teacher: 1 child ratio. Specific goals will be individualized based on each child's recent VB-MAPP (Sundberg, 2009) and/or the Assessment of Basic Language and Learning Skills-Revised (Sundberg & Partington, 2006). Skills will be monitored through data collection on a daily basis and shared with parents and team members. Your child will be seen on a rotating basis by a dually certified Speech language Pathologist/Board Certified Behavior Analyst, and a Verbal Behavior Jr. Consultant.

When: The Summer Clinic is split up into two, four-week sessions (choose one):
